## School Building

## Mathematics Laboratory

The “Math’s Lab” is laboratory to teach concept of math in an interactive and engaging way. It is a place where our students can explore variety of patterns and ideas through experiments – like, puzzles, planes, shapes, and with many other tools. The lab is meant to design to develop an interest in mathematics with real visualization. The activities create interest in students to explore and examine their ideas and beliefs about mathematics. Many of the activities involve challenges to solve problems with the possibility of generating next level challenges and problems.

These activities are helpful for students to visualize, analyze. The innovative Math Lab ensures the understanding and verification of various theories and concept of math.

To make mathematical learning impactful and joyful experience, our school has a well-furnished mathematics lab.

## Computer Lab

To equip our students for the future we have a full-fledged computer laboratory with easy access to the latest field of technology. It is an important section of the school which enables student-led workshop and offers them hands on IT knowledge. The school lays emphasis on computers for all the classes.

## Science (Composite) Laboratory

Effective teaching and learning of science involves seeing, handling and manipulating real objects and materials. ICIS has well and technically equipped composite science lab, which allows students to interact directly with the scientific concepts. They get a first-hand learning experience by performing various experiments, activities and demonstrations on their own.

## Performing Arts

The co-scholastic activities are given equal importance along with the scholastic at ICIS. Main roots of performing arts are Dance, Movement, Music and Singing. The students get acquaintance to new roles when they enact in Roleplay. To minimize the stage fright and to inculcate the confidence in the students various activities are performed through out the year.

## Library

The School has a well-resourced library with a variety of periodicals, journals, magazines, newsletters, fiction, reference books and volumes of encyclopedias. This builds on the literary competency of the learners, which is a strong feature of our reading program. Students are encouraged to use the library for reading, creative writing and preparing book reviews and projects. Reading is one of the most fundamental skills that are essential to conquer success in life.

## Sports / Physical Education

The **importance** of **sports** and games in **school** encompasses more than just the benefit of physical activity. It increases self-esteem and mental attentiveness. It leads to composed psychological and physical progress. It teaches the children life abilities like unity, leadership and perseverance. At ICIS we offer indoor and outdoor games-Cricket, Football, Basketball, Volleyball and Chess as sports club activities.

## School Play Ground

## Fitness Program

Say "om" for better health

This mind-body exercise includes physical postures, breathing techniques, and meditation.  
Yoga is an invaluable gift of India's ancient tradition and is a holistic approach to health and well-being.
